Memorandum for the Record

Subject: EAM Installation []

25X1

1. I discussed with [] Chairman of DDI Records Committee today the possibility of reducing the size of the EAM Installation []. He suggested that the present Tabulator (407) which has a rental of over \$11,000. per year be replaced by a 402 Tabulator which would rent for about \$5,000 per year. He is agreeable to this proposal and will also accept some other modifications which would bring about a reduction of \$6,000 per year in the total rental bill.

25X1

2. Such a proposal will probably be acceptable to all DDI offices which have need for EAM facilities. Formal agreement of such a proposal will be obtained for this area by []. [] He expects to complete this within the next week and will notify me.
